BUILDERS EXCHANGE 
Your Construction Connection

Learn the steps you can take now to safeguard your information, data and finances. Some topics to be addressed include:

- Is cybersecurity a major concern for your business? It should be!
- The risks surrounding your data are much higher than you think.
- What is an information security program and why should you have one?
- What are security frameworks? Why are they important for your business?
- Important security measures to protect you, your company and your customers.
